

Distance Learning

Message from Steven Edwards – All Saints Webmaster

Weston College offers a range of free online courses that provide a range of benefits for individuals and employers.

These digital courses are designed for learners who are unable to study full-time or commit to rigid timetables.

You get all the benefits of a **'regular' college course** but can learn at your own pace, around other commitments and in the **comfort of your own home**.

This means you can study when it's convenient, which is ideal if you work full-time, have irregular shift patterns or face other pressures that make getting to college difficult, like being in lockdown!

As with any course, you'll be assigned a personal tutor, who you can contact online or meet face-to-face when it's convenient to you. You'll also receive your course materials, lesson content and assignments through our easy-to-use online training platform.

Plus, the courses are free if you meet the eligibility criteria and it couldn't be easier to apply and get started.

So, whether you're looking to gain new skills, boost your employment prospects or change careers, we've got a course for you. Take a look at our range of online courses below on this link.
